U.S. Office of Personnel Management Improvement Plan Under Executive Order 13392: Improving Agency Disclosure of Information

In accordance with Executive Order 13392: Improving Agency Disclosure of Information and related guidance from the U.S. Department of Justice, the U.S. Office of Personnel Management (OPM) has performed a review of its Freedom of Information Act (FOIA) operations and provides the following information and action plan.

A. Nature of the U.S. Office of Personnel Management's FOIA operations

OPM receives and processes a significant number of FOIA requests each year. The largest number of FOIA requests are related to OPM contracts, civilian employment statistics, and personnel actions. In FY 2005, OPM received 4,594 FOIA requests, processed 4,518 within the statutory time limit, and has a backlog of 107 requests from FY 2005 which the agency is addressing.

OPM's FOIA Requester Service Center has one full-time FOIA coordinator working with 19 decentralized Program Office FOIA contacts who perform FOIA functions as a collateral duty. The FOIA coordinator manages the agency's new and outstanding FOIA requests and coordinates improvement plans for OPM's FOIA operations with the agency's Chief FOIA Officer and the 19 Program Office FOIA contacts throughout the agency. This arrangement is considered to be high-risk with regard to customer response times. Actions to address this risk are included in the following action plan.

B. Areas selected for review

OPM selected all 27 areas recommended for review by the Department of Justice and added two improvement areas for developing this plan, as follows:

1. Affirmative disclosure under section (a)(2) of the FOIA
2. Proactive disclosure of information
3. Overall FOIA Web site improvement
4. Improvement of agency's FOIA Reference Guide
5. Automated tracking capabilities
6. Electronic FOIA – automated processing
7. Electronic FOIA – receiving/responding to requests electronically.
8. Multi-track processing
9. Troubleshooting of any existing problems (even minor ones) with existing request tracking
10. Case-by-case problem identification
11. Expedited processing
12. Backlog reduction/elimination
13. Politeness/courtesy
14. Forms of communication with requesters
15. Acknowledgement letters

16. System of handling referrals
17. System of handling consultations
18. Process by which necessary cooperation is obtained from agency "program personnel"
19. Improvement ideas from field office personnel (where applicable)
20. Additional training needed (formal and/or on-the-job)
21. In-house training on "safeguarding label"/FOIA exemption distinctions
22. Increased staffing (where applicable)
23. Changes to personnel practices (job series, grades, etc.) needed
24. Contracting out/hiring of contract employees
25. Purchase of new equipment needed
26. Centralization/decentralization
27. Recycling of improvement information gleaned from FOIA Requester Service Centers
28. Updating OPM FOIA regulations
29. Improved internal communication within OPM about FOIA responsibilities

C. Summary of review results

OPM's initial review of the improvement areas mentioned above showed a need for improvement in 18 areas. The highest priority areas for improvement are:

- Affirmative disclosure under section (a)(2)
- Proactive disclosure of information
- Automated tracking capabilities
- Electronic FOIA – automated processing
- Expedited processing
- Backlog reduction/elimination
- Politeness/courtesy
- Acknowledgement letters
- Increased staffing
- Improved internal communications within OPM about FOIA responsibilities

The agency's action plan for improving these areas is provided in Section E, below, and includes such actions as increasing information on the OPM web site, improving the agency's outdated FOIA tracking system, increasing training for all Program Office FOIA contacts, and improving workflow for processing FOIA requests.

OPM was one of the first federal agencies to implement electronic FOIA processing which it initiated in 1999. Since then the agency has received 1,000 FOIA requests electronically. OPM plans to build on its success in processing FOIA requests electronically by adding the capability to scan incoming paper requests as noted in the action plan below.

D. Improvement areas chosen for agency plan

OPM selected the following areas for improvement after conducting a review of the agency's FOIA processes. The list below reflects the Department of Justice Executive Order 13392 Implementation Guide numbering scheme and includes the two additional improvement areas mentioned above that have been identified by OPM.

1. Affirmative disclosure under section (a)(2) of the FOIA
2. Proactive disclosure of information
3. Overall FOIA Web site improvement
4. Improvement of agency's FOIA Reference Guide
5. Automated tracking capabilities
6. Electronic FOIA – automated processing
9. Troubleshooting of any existing problems (even minor ones) with existing request tracking
11. Expedited processing
12. Backlog reduction/elimination
13. Politeness/courtesy
14. Forms of communication with requesters
15. Acknowledgement letters
19. Improvement ideas from field office personnel (where applicable)
20. Additional training needed (formal and/or on-the-job)
21. In-house training on "safeguarding label"/FOIA exemption distinctions
22. Increased staffing (where applicable)
27. Recycling of improvement information gleaned from FOIA Requester Service Centers
28. Development of OPM FOIA regulations
29. Improved internal communications within OPM about FOIA responsibilities
